

Changing Places Toilets

Changing Places Toilets are fully accessible toilets that have been designed for people who are not able to use the toilet independently. This includes people with profound and multiple learning disabilities, or with physical difficulties, such as spinal injuries, muscular dystrophy and multiple sclerosis.

With plenty of extra space, a Changing Places Toilet allows for:

- mobility aids to be taken right up to the toilet
- a carer to go into the facility to assist.

Extra equipment is also available including:

- an adult-sized changing bench
- a wide tear-off paper rolls close to changing bench
- a hoist
- a curtain or screen
- grab rails placed wherever support is required
- a large wastepaper bin for disposing of things like pads or stoma bags
- an emergency alarm to summon help.

Changing Places Toilets are available in a range of locations across the East Riding including:

- leisure centres
- day opportunities centres
- children's centres
- shopping centres
- hospitals.

You can [find a local Changing Places Toilet on the Changing Places website:](https://www.changing-places.org/find)
